### 📄 SUMMARY

I am a Programmer with a BSc in Pharmacy and a PhD in Science. I've always been passionate about technology. I have cultivated a diverse skill set for life and Programming and implemented more than 20 projects. I'm quick to learn, adaptive, and I have solid knowledge of programming languages and frameworks for Web Development – including **JavaScript/TypeScript, React, Node.js, Express.js, MongoDB, and PostgreSQL** – to build clean, efficient applications with RESTful APIs.

### 🧠 SKILLS

#### Back end

Node.js, Express, PrismaORM, Jest, Supertest, Python, Java, Spring Boot

#### Databases

MongoDB, PostgreSQL, SQL

#### Front end

JavaScript, TypeScript, React, Styled components, Figma

#### Software Infrastructure

APIs, RESTful, Docker, AWS, CI/CD, GitHub Actions

#### Web Development fundamentals

HTTP protocol, Request, Response

#### Languages

Portuguese - native  
English - proficient

### 📁 PROFESSIONAL EXPERIENCE

#### Driven Projects, Full-Stack Developer

07/2024 – 10/2025

- I developed systems and applications with React.js, Node.js, TypeScript, and Prisma.
- I applied software engineering best practices, including layered architecture, clean code, performance and optimization.
- I've tested applications end-to-end with unitary and integration tests, assuring software quality.
- I've worked with agile methods (Scrum) using Git, Trello, Zoom, and Discord to give and receive feedback for better collaboration.

#### Featured project: BoardCamp

-Modelling and implementation of a SQL database.

-Implementation of a RESTful API for board game rental with the following features: registration, authentication, stock management, game search, and fee calculation.

Tech-stack: Typescript, Node.js, Express.js, PrismaORM and PostgreSQL.

<https://github.com/AnnyloryLR/Boardcamp> 🔗

#### Labpharma Analytical and Legal Consulting, Researcher

09/2023 – 01/2024

- I worked on more than 5 projects with different scopes, including analytical method development, validation tests, dissolution studies, and impurity analysis;

### 🎓 EDUCATION

#### Estácio, Engenharia de Software

04/2025 – atual

- Network fundamentals, Cloud computing and Information Security, Data structures, algorithms, Mathematics and programming logic;
